FOR IMMEDIATE RELEASE

MTSS-mba Membership Benefits Administration Software for Private and Taft-Hartley Employee Benefit Funds Unveils “Templates Gold” Series as Lower Cost Turn-Key Entry Level Solution

May 2, 2012 – Gaithersburg, MD – Talbot Business Solutions, LLC, a premier software solutions provider, announced today the release of the “Templates Gold” series of modules for its existing Employee Benefits Administration software product, MTSS-mba. The new modules have been especially designed to provide a new lower cost, entry level, turn-key solution for fund organizations having fewer participants and fixed, or nearly fixed data and workflow requirements.

The features of the new “Templates Gold” modules are robust, fast and similar in look and feel to the enterprise version of MTSS-mba modules. The “Templates Gold” series offers a well orchestrated and finely tuned set of predefined feature sets, data import templates and workflow processes fitted and streamlined to a smaller range of participants. This results in reduced implementation and maintenance costs which of course translates directly into customer savings.

The first modules to be available in the “Templates Gold” series are Health and Welfare Eligibility Costing and Tracking modules followed by Pension Benefit modules.

In use since 1991, MTSS-mba has continued to develop and mature into a feature-rich, powerful enterprise solution that efficiently manages benefit fund data for Health and Welfare, Pension, Legal Services and other employee benefit programs with ease. Difficult tasks such as H&W eligibility tracking and pension vesting calculations, are performed effortlessly. The integrated document imaging modules enable immediate access to scanned source documents for visual verification of data.

MTSS-mba has a customizable, modular design that affords seamless integration to accommodate any work-flow environment -- from the simplest single fund entity to the most complicated multi-fund, multi-entity organization having hundreds of thousands of benefit participants.

MTSS-mba enables benefit administrators to conserve resources, reduce expenses and increase revenues, and turn benefits administration into a profit center!

About Talbot Business Solutions, LLC

Talbot Business Solutions was founded in Gaithersburg, Maryland in 2009 with the goal of bringing the absolute best management software solutions, and the highest customer service, to the Employee Benefits industry.
